For the twelfth time in thirty-two years the Queen's Prize has been won by a Scottish Volunteer. For the second time has it gone to the Scottish metropolis, the previous occasion being in 1872 when it was won by Sergeant Menzies, Queen's Edinburgh. The sinner this year, I'rivate Dear of the same regiment, is a shot of good repute in Scotland, though not till this year has he made any appearance in the Queen's Hundred.

THE last report from Raub is more encouraging than those reports have been for some time. Substantially, the manager amends of reserves of ore and of the need of ten new stamps at the present battery in order to deal with the ore in sight. It appears also that he has struck a large quantity of ore at Bukit Jellit, which is a place about two miles distant from the Raub Hole. It appears he regards that as a very important find, and he thinks he will want 30 or 40 head of stamps to place there, The health of the camp is good.

THE Straits Independent discusses the consolidation of Malaya, partly favourably, and partly adversely. That is to say, it thinks the present time for such a scheme is inopportune because it holds that the Governments of France and Germany would make such consolidation the excuso to claim the right to seize land in this part of the world. The Independent, however, thinks that the whole Malay Peninsula must ultimately fall to England and that it is absolutely necessary that 'the whole of Malaya should be converted into a united and homeogeneous British Colony.'
